“The *Journal of Health Organization and Management (JHOM)* publishes papers of a very high quality and its reputation is growing within the academic community. In particular, the *JHOM* has made an impact by the strategic use of special issues on subjects such as leadership, emotions, trust and power within healthcare (to name a few). It publishes high quality quantitative and qualitative articles.”

Dr Anthony Montgomery, University College Cork, Ireland, *Clinical Governance; An International Journal*

Why choose Emerald Subject Collections?

Tailored – with each collection based around a specific management discipline, you can ensure that the information you receive is directly relevant to your interest area

High quality – Emerald's scholarly journals are peer reviewed and many are Thomson Reuters (ISI) ranked. All of Emerald's book series contain commissioned content, so users can be assured that they are accessing verified quality research

Cost-effective – by tailoring your subscription to specific subject areas you will not pay for information that is not relevant and if a new title is launched or acquired in your collection, then you will automatically receive access as soon as the content is available online ... at no extra cost

Continuous access – all research is available online through a simple search and browse facility, which can be used by any number of people at the same time

No embargoes – your subscription will provide you with immediate access to the latest articles and chapters in your chosen subject area(s) as they are published

Save time – with journals and book series available through one integrated platform, you will save vital search time by pin-pointing the right information quickly

International – access research from an international author base to ensure a global perspective.

What does a subscription include?

- Perpetual access to all research published during the year of your subscription and rented access to full text dating back to 1994
- Integrated and intuitive search and browse functionality with HTML or PDF formats available
- In addition, subscribers can also access a range of useful support resources – all designed to make research easier!

Who should subscribe?

Emerald publishes research you can use. This means that each collection produces research papers that support the academic community, as well as being of interest to managers.
